

THE - DAILY - HERALD -

"FIRST OF ALL, THE NEWS."

ISSUED EVERY DAY EXCEPT SUNDAY.

JESSE O. WHEELER, Editor and Prop.

Entered at the Postoffice, Brownsville, Texas, as second-class matter.

TUESDAY, DECEMBER 6, 1892.

Congress convenes today.

JAY GOULD will not come south this winter.

AMERICA is a pretty big place but she has no spare room for European scum.

THE emperor of Germany is going to send all of his grandpa's birthday presents to the world's fair.

IT REMAINS for congress to say whether or not cholera shall be one of the invited guests at the world's fair.

EVEN great men will stoop to puns once in a while. The Galveston News says "Kansas seems to be for lease."

THE army of office seekers in some parts of the country increases almost as rapidly as the pension claimants.

THE growing sentiment against indiscriminate admission of immigrants should receive special attention of congress.

DURING the five months of free entry it is estimated that about 5,000,000 bushels of American corn found a market in Mexico.

SAN ANTONIO is beginning to grumble now about broken window glass, etc. The city of tangles has had glory enough for a while.

THE Cuero Star says: With one Orrin in congress and another president of the state senate, it may be truly said that Texas is flying high.

THE railroad commission claim that they are kept just as busy as possible. How grateful they must be to Judge McCormick for relieving them of so much labor.

GALVESTON NEWS: The trouble with our educational system is that under it a boy or girl always learns more than his or her parents long before the pip is worn off his or her nose.

THE solons of the nation will straggle into the great capitol at Washington today and take up the arduous duties which some so recently expended their eloquence in begging for.

THE Victoria Advocate says: A man was lynched for burning a stable in South Carolina the other day. Poor fellow! Why didn't he murder somebody and thereby procure the title of colonel?

LAREDO TIMES: Laredo should have a building and loan association. This is one of the safest and most practical methods for men of limited means to get a home that has ever been tried. It would work well here if properly managed and be a benefit not only to the members but to the whole community.

THE Southwest Texas Press association meets in Corpus Christi on the 16th. and 17th. of this month. They could not have chosen a lovelier or more interesting place for their convale. The good people of the Bluff City will doubtless do themselves proud in entertaining the learned convale. We would advise the Corpus Christians, by the way, to be sure their dwellings are all provided with lighting rods before so much attraction is concentrated within their little city.

JAY GOULD is dead. How strange it seems, that this man with all his wealth—his hoarded millions—his restless powerful brain which gave him such power over his fellow men, has now no greater kingdom on earth than the humblest pauper who occupies in undisputed possession his six feet of earth. The great leveller of all ranks has beckoned to him and Jay Gould has followed him into the great beyond.

THE Jackson County Progress has it in for the lackadaical lawyer who takes his own time as well as that of everyone else. The Progress says:

Judge Wilson over in the 24th district is the right kind of timber for the bench. In opening court at Victoria last week he assessed fines against not less than seven lawyers for not being on time. Heretofore it has been the custom to punish jury men and witnesses and let the lawyers go.

THE Galveston News Washington special says:

A very strong effort will be made by democratic members of both houses to get Mr. Oulberson in the cabinet as attorney general. The president-elect has already been approached on the subject by senators and representatives, some of them strong for Cleveland.

THE Rotnschids are said to have a curious way of providing a birthday present for all the girls of the family when they come of age. At the birth of each little girl six pearls valued at \$2,500 are put aside. Six more are added at each birthday, and when the young lady reaches the age of 21 she is presented with the valuable necklace.

No less than 180,000 pensioners were added to the rolls this year, increasing the total number of pensioners to \$53,087. At this rate there will be very few able bodied men left in the United States ere long.

THE Beeville Picayune kindly proposes to its subscribers that if they have any of those ragged, germ-breeding bills on hand, the Pic. will relieve them by taking said bills in payment for subscription.

A MACHINE has been invented for picking cotton. Another should be invented to provide bread for the thousands of cotton pickers who will be out of work, if such an invention should be universally adopted.

I have for sale a new buggy, with set of harness, which I will sell cheap. The buggy was made by the Hayduke Carriage Co., of St. Louis, Mo. I also have a double set of harness, which will be sold cheap.

In Judge King's court at San Antonio Wednesday W. D. Meadows, charged with the murder of Dr. Brazell's son at Yorktown, was granted bail in the sum of \$10,000. Meadows was acquitted of the murder of Dr. Brazell by the district court at Cuero last year, but was refused bail in the case against him for killing the son. Ten years ago Meadows forfeited a \$10,000 bond under both of the above named charges.—Victoria Advocate.
